State-of-the-art Retractable Motorized Monitors made of anodized aluminium with rounded corners.

SRET173A-10

SOLTEC TECHNICAL SPECIFICATIONS

RETRACTABLE MOTORIZED MONITOR RET A Line

GENERAL DESCRIPTION

Retractable Motorized 17.3" TFT monitor for boardroom and meeting room tables. 20° **tilt adjustment** that can be set according to user preference. High-end anodized aluminium monitor housing with rounded corners.

Automatic opening system for the cover plate, avoiding contact between monitor housing and the lid. If an obstruction is detected on the cover plate, the system stops and reverts the movement.

Brushed aluminium cover plate.

Monitor and cover plate can be customized with different finishings.

RS-232 serial control through DB9 connector.
RS-485/422 serial control through In/Out RJ45 connector allowing loop and addressing.

Full range of options available.

Technical product description

Retractable Motorized 17.3" TFT Monitor with 20° tilt adjustment that can be set according to user preference. Monitor housing made of anodized aluminium with rounded corners.

Brushed aluminium cover plate with automatic opening system to avoid contact between the monitor and the cover plate aperture.

Native resolution WXGA 1920x1080. Two electrical engines, one for the lift system and the other one for the tilt adjustment. Four pushbuttons located on the cover plate, two for the 20° tilt adjustment and the other two for the up/down lift system.

VGA and DVI inputs. 1xRS-232 serial control through DB9 connector and 1xRS-485/422 serial control through RJ45 connector in loop and addressing. External power supply.
